

Student of the Week Schedule

Each student will have the opportunity to be Student of the Week. On the first day of that week, our class will interview the Student of the Week to learn more about him or her. We will record our learnings on chart paper and this will become a souvenir for your child. Some possible questions include:

- What is your favourite... (animal, color, food, sport, etc.)?
- Who is in your family?

On the Friday of your child's week as Student of the Week, I would love to have your child bring in 3 small items that they can show the class. These items should be important to your child. However, please keep breakable or very valuable items at home. Instead, take a picture of the item and have your child bring this in.

Being Student of the Week comes with some special and exciting privileges in the classroom, such as being the caretaker of Chester (our chimpanzee - stuffed animal). On the weekend, your child will get to take Chester home. Be creative and take him on a special adventure – a trip to the park, to a sporting event, or just cuddle and read together. I will send home a binder called "My Adventure with Chester" for your child to write about their special weekend. Feel free to take or draw a picture of these events as well. Your child will read about their adventure with Chester to the class the following week. Have fun!
